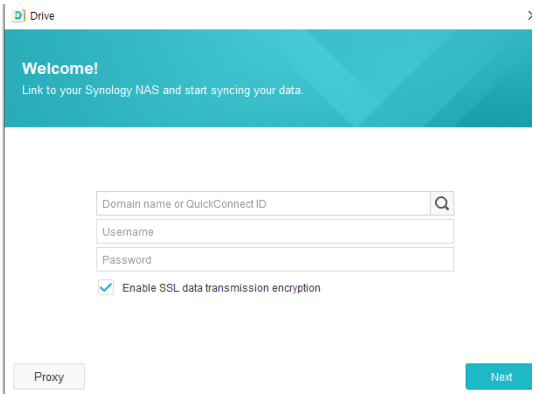
1. Download Synology Drive to your PC at Kim website.

PC https://pan.baidu.com/s/1KRNtLWnC7jnKkF02uLSv_A

Mac https://pan.baidu.com/s/1sBP30Br7F-KunGGNki5c3Q

2. After download to your PC, Install Synology Drive to your PC.

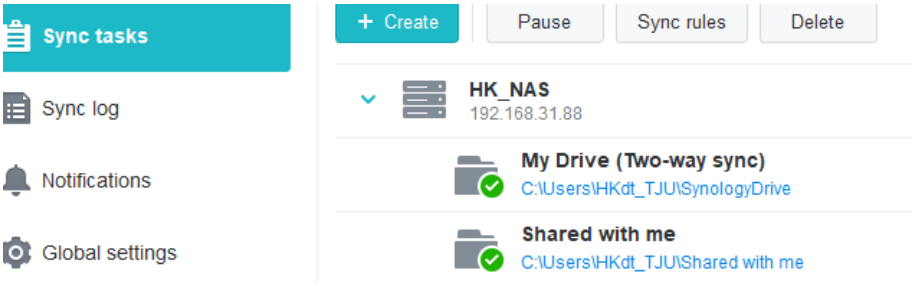
Use information for set up . domain name: Kimslab, Username and Password



Keep click OK or Next to complete set up.

3. Once completed, double click sinology drive

There are two folders



My drive (or Synology drive) : If you save files to this folder, files will be saved in Lab.

Shared with me : Files saved in this folder will be shared with professor.

#LabXXXXX folder : Save your Lab presentation files, data under

#Papers JC : save files for Journal Club. Files will be shared for all.

Temporary : You can save or delete files and everyone in the lab can see or delete it. Files will be deleted anytime. Only save files for several days.
