Before / During Lab Rotation

Disadvantage of working in the lab

Broad information to learn. Not easy to become establish.

Publication effort is greater/harder than other fields: takes longer time for publication. Work 3 years for MS course.

Monday to Sunday work: Every day lab work.

Lab guideline: 9 Am Monday to 8 Pm Friday. 10 Am Saturday. Anytime Sunday.

2 week holidays for Summer and Spring festival break.

Lab rotation is not the end. You may continue asking yourself whether you suit for the lab for years.

As soon as you find yourself not suit for the lab, talk to advisor for your career.

Advantages
